

SCRABBLE COASTERS

Score points with this cool beverage accessory

1. You will have a cork square and 25 tiles that you can use to make a 5x5 design. You will have the outer tiles hang over the edge.
2. Line the tiles up in a 5x5 you would like - This will help you visualize and figure out the best ways to line the tiles up. Also, be creative as you want. Create a winning word score! Write a secret message! Have a nonsense word that is an actually cool acronym! Or you can flip tiles over and write your own letters on the other side.
3. Pull off the paper on the adhesive side, and start putting the tiles where you would like them.
4. You will see your geeky coaster that will impress all of your friends and parents (as they astonish at the skill of your manners)
